THE PLUS 90™
MODEL 350MAV

Energy Efficient Comfort To Warm Your Winters.

Let Bryant's Plus

Bryant has been working to keep homeowners comfortable since 1904. Our tradition of providing trusted, reliable solutions for indoor comfort has made us one of the leaders in the home comfort industry. We've built our reputation for top-quality products and services through teamwork. From Bryant team members in product design and manufacturing to your local Bryant dealer, we work hard to ensure your total home comfort. That's why we're proud to offer the Plus 90 condensing furnace.

WARRANTY

Bryant protects your comfort with written product warranties. The Plus 90 is backed by a lifetime limited warranty on the heat exchangers. The entire Plus 90 is protected by a five-year limited warranty. Extended warranties are also available. Ask your local Bryant dealer for details.

Heating & Cooling Systems
Since 1904

Rest Easy With Quiet, Efficient Comfort You Can Count On.

Bryant's Plus 90 keeps your home warm and comfortable with up to 95.5% AFUE (Annual Fuel Utilization Efficiency). That's an improvement of almost 30% over typical older furnaces. Our primary heat exchanger transfers 80% of the available heat into your home. Although this is where most furnaces stop, Bryant's patented secondary heat exchanger transfers an additional 11-15% of the available heat into your home for money savings, energy efficiency and comfort.

The Plus 90 allows you to relax in quiet comfort without distracting furnace noises. The inducer motor and sealed combustion system control the outside air

intake to keep sound and drafts to a minimum.

Bryant's Fan On *Plus*™ gives you even more control of your indoor comfort, by allowing you to select your continuous fan speed at the thermostat. You have 3 selections—choose the one that is best for you and your family.

Built For Long-Lasting Reliability.

The Bryant Plus 90 is built to last. Each unit is put together by hardworking craftsmen who use durable, quality-tested components. We take pride in the fact that the Plus 90 offers money-saving efficiency, quiet operation and long-lasting value.

90 Work For You.

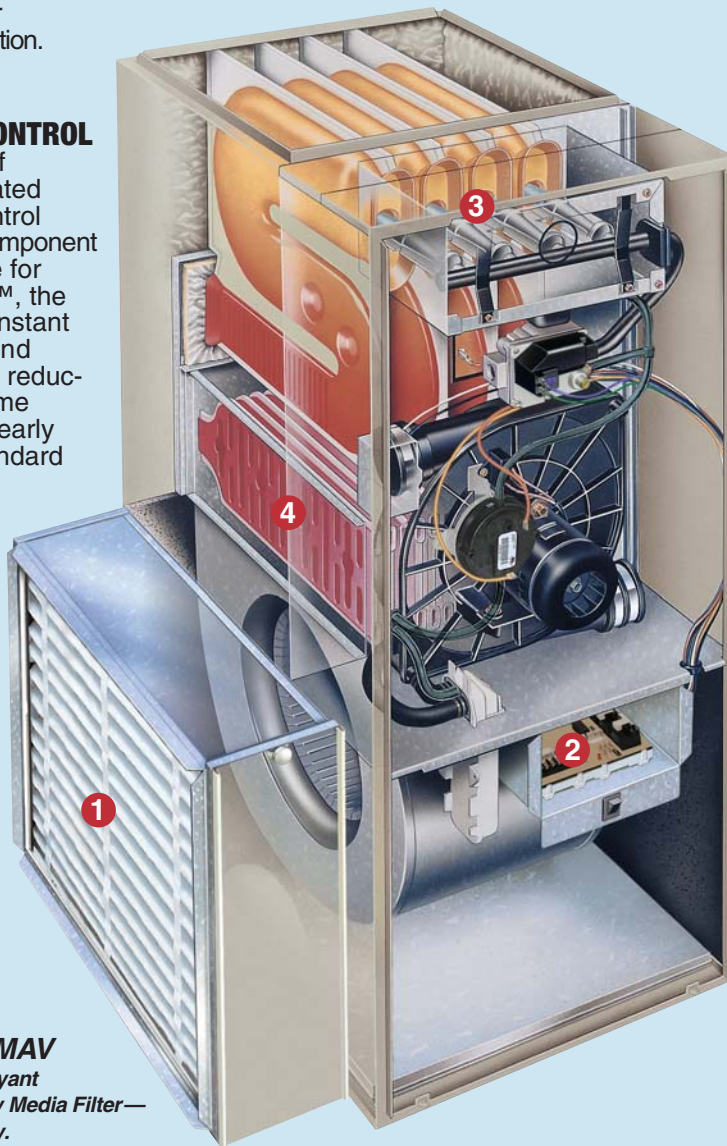

Durable, Energy-Efficient Components.

1 IMPROVED INDOOR AIR QUALITY is made easier with our air cleaner cabinet accessory. When installed as a part of your system, this cabinet allows for easy and convenient addition of a Bryant high-efficiency air filter. Ask your Bryant dealer if the air cleaner cabinet will work with your specific application.

2 ENHANCED COMFORT CONTROL is the result of our sophisticated electronic control board. This component is responsible for Fan On Plus™, the adjustable constant fan function and SmartEvap™, reducing summertime humidity by nearly 10% over standard systems.

3 SEALED COMBUSTION SYSTEM eliminates drafts and allows quiet operation by using outdoor air for combustion.

4 SECONDARY CONDENSING HEAT EXCHANGER extends heat transfer for higher efficiency. It is protected by our patented Everlastic™ coating for long-lasting durability. This component is backed by our lifetime limited warranty.

Designed For Durability.

Condensing furnaces, like the Plus 90, extract nearly all of the remaining heat from the system utilizing a secondary heat exchanger. Inside, where condensation occurs, our patented Everlastic™ polypropylene laminate resists corrosion for long-lasting durability.

Bryant offers a complete line of easy-to-use thermostats that improve the efficiency and reliability of your indoor comfort system. Ask your local Bryant dealer how to improve the value of your heating and cooling system with one of our thermostats.

The Indianapolis manufacturing plant and engineering facility is ISO 9001 certified.

An On-Going Tradition Of Value.

From the engineers in our design laboratories to your local dealer, the Bryant team is dedicated to your indoor comfort. We have combined the skilled craftsmanship of our heritage with proven designs and reliable components to deliver top-quality, energy-efficient home comfort. The Plus 90 condensing gas furnace is a perfect example of Bryant's on-going tradition of value.

Your local Bryant dealer can help you build a total indoor comfort system. Offering a complete line of furnaces, air conditioners, humidifiers, air cleaners, ventilators, zoning and controls, your Bryant dealer can show you how to get the most comfort for your investment.

He can also help you maintain your system so it operates reliably for money-saving efficiency and quiet, soothing comfort. As a committed member of the Bryant team, your Bryant dealer will help you enjoy worry-free comfort season after season.
