THE PLUS 90i[™]
MODEL 355MAV
WITH PERFECT HEAT PERFECT HUMIDITY

Improved Air Circulation For Improved Comfort.

Bryant's Plus 90i Provides

Since the earliest days of this century, Bryant has offered solutions for indoor comfort. Through the years, our ability to produce products that provide long-lasting, energy-efficient operation and top-quality performance has made Bryant a leader. Today, Bryant continues to lead the home comfort industry by offering soothing comfort to homeowners everywhere with the Plus 90i condensing gas furnace.

Bryant's Plus 90i Will Never Leave You Out In The Cold.

When Old Man Winter comes knocking on your door, you need a furnace you can count on. With Bryant's Plus 90i, you can protect your family from the harsh winter cold without stretching your budget too thin. The Plus 90i keeps your home warm and comfortable with up to 96.6% AFUE (Annual Fuel Utilization Efficiency). That's over 30% more efficient than typical older furnaces.

The Plus 90i operates at the ideal capacity to efficiently warm your home. For example, on typical days the Plus 90i operates at a lower capacity to maintain your desired comfort level. In more extreme temperatures, the Plus 90i automatically stages up into a higher capacity to ensure your comfort.

Bryant's Fan On *Plus*[™] gives you even more control of your indoor comfort, by allowing you to

select your continuous fan speed at the thermostat. You have 3 selections—choose the one that is best for you and your family.

During the summer months, the Plus 90i saves you money by enhancing the efficiency of a Bryant air conditioning system and improves comfort by removing more moisture when combined with a Bryant Evolution[™] Control.

WARRANTY

Bryant protects your comfort with written product warranties.

The Plus 90i is backed by a lifetime limited warranty on the heat exchangers.

The entire Plus 90i is protected by a five-year limited warranty.

Extended warranties are also available.

Ask your local Bryant dealer for details.

Additional Savings.

The Plus 90i will also save you money on your electric bills, thanks to the highly efficient variable-speed motors. This combination of gas and electric savings makes the Plus 90i one of the most energy-efficient furnaces you can buy.

Heating & Cooling Systems
Since 1904

ides The Best Comfort.

Comfort Components For Long-lasting Durability.

1 SECONDARY CONDENSING HEAT EXCHANGER
Extends heat transfer for higher efficiency. It is protected by our patented Everlastic™ coating for long-lasting durability. This component is backed by our lifetime limited warranty.

2 VARIABLE SPEED BLOWER
Features a direct-drive motor that operates with precision to deliver quiet, dependable heating and improved humidity control.

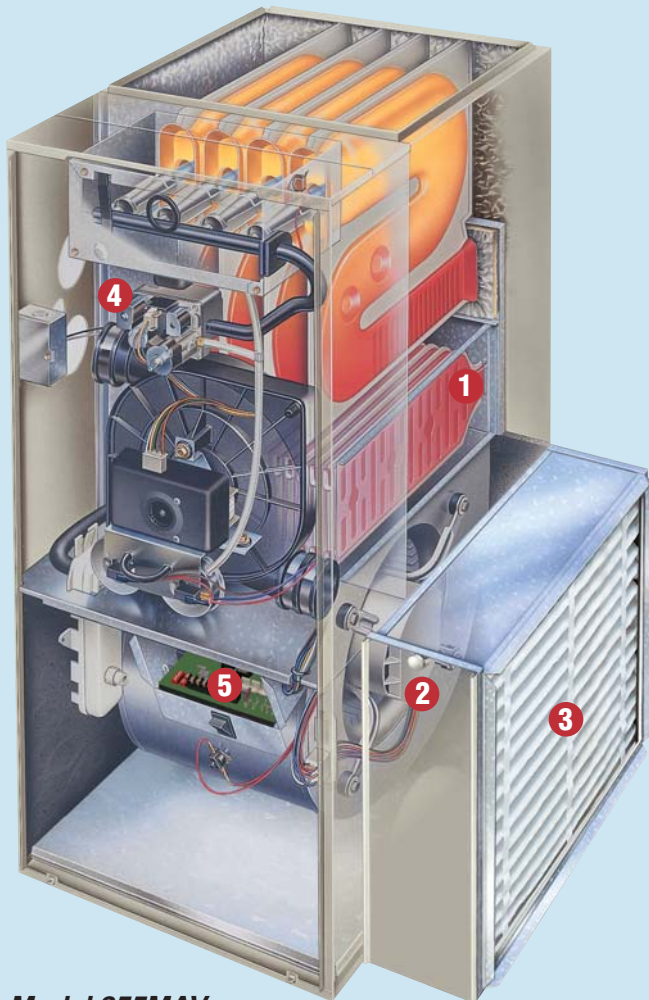

3 IMPROVED INDOOR AIR QUALITY is the benefit provided with our standard air cleaner cabinet accessory. When installed as a part of your system, this cabinet allows for easy and convenient addition of a Bryant high-efficiency air filter. Ask your Bryant dealer if the air cleaner cabinet will work with your specific application.

4 TWO STAGES OF HEATING
provided by our two-stage gas valve. Low-stage heating is used up to 90% of the time for smooth, consistent comfort. High-stage heating provides an extra boost during extreme winter conditions.

5 SMART OPERATION
with our patented furnace control board means your family will always enjoy the best combination of comfort and economy. Just set the thermostat and let our "smart" electronics do the rest. This advanced control board is the key to Fan On Plus™, Bryant's adjustable constant fan function.

The Evolution of Comfort.

When combined with a Two-Speed Puron Plus air conditioner or heat pump and the Evolution™ Control, the Plus 90i provides the ultimate in comfort and energy savings. With the Evolution System, you can enjoy enhanced comfort provided by variable speed technology, such as longer heating and cooling cycles for consistent temperatures throughout your home, money-saving energy efficiency and extra-quiet operation. The Evolution System can be configured to meet your year-round comfort needs. It's a total system solution, designed, built and backed by the most trusted name in comfort: Bryant.

shown with optional Bryant High Efficiency Media Filter.

EVOLUTION™ SYSTEM

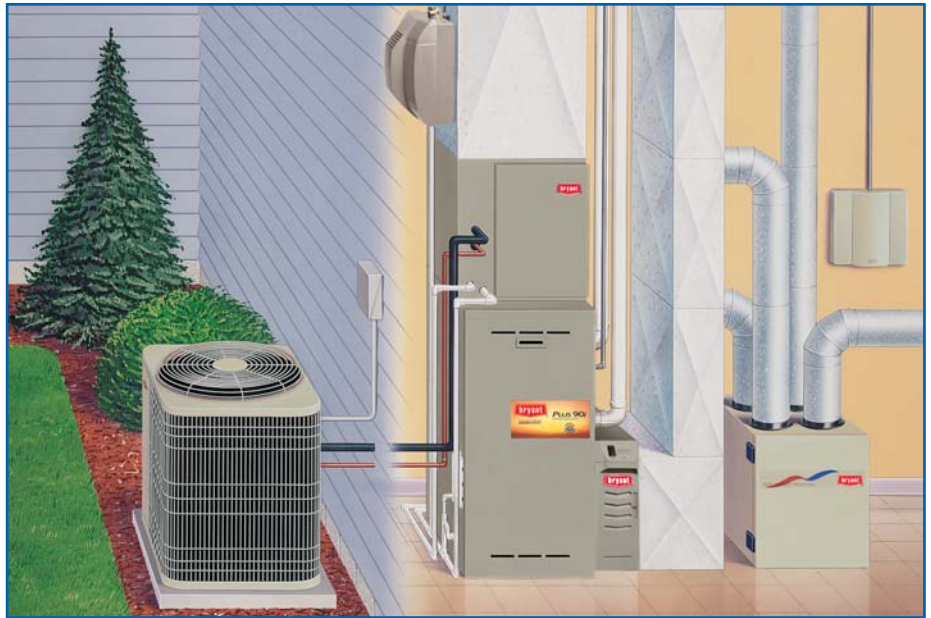

The optional Evolution Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality.

Bryant Has Been Keeping America Comfortable Since 1904.

America has changed quite a bit since 1904. But at Bryant, our philosophy of building top-quality, dependable home comfort equipment has remained the same. Since 1904, homeowners everywhere have been turning to Bryant for indoor comfort they can trust.

Your local Bryant dealer can come to your rescue with a complete line of furnaces, air conditioners, humidifiers, air cleaners, ventilators, zoning and controls. Your local Bryant dealer can also show you how to get the most comfort for your investment. He can help you maintain your system so it operates at the optimum performance for money-saving efficiency and quiet, soothing comfort.

As a committed member of the Bryant team, your Bryant dealer will help you enjoy worry-free comfort season after season.
